The new Finns at Berawa Beach has taken off instantly as the place to enjoy the Bali sunset in style in the Canggu area. The enormous, absolute beachfront venue, made principally from bamboo, has a famous surf break right out the front, plenty of day beds around the 30-metre swimming pool, and DJ music pumping up or chilling down the vibe every day of the week. Finns Canggu is only 15 minutes from Seminyak and has plenty of private parking.

The expansive double-storey bamboo structure, with an observation platform above, was designed to allow every guest to have a stunning ocean view no

matter where they sit. And it's true, the views from just about everywhere are breathtaking. Night surfing is also possible, with flood lights allowing surfers to continue catching waves at the famous Berawa break all day and into the night. The DJs accompany them from 4pm daily.

With classy cocktails, a great beach club style menu, daily DJ sessions and awesome sunset views, with an accessibility and affordability for everyone, Finns Canggu has already cemented itself as a major player in Canggu. It's open from 9am to midnight with free entrance.
